MISSOULA--

A total of 1,070 students made the University of Montana Deans' List for autumn quarter 1978. Formerly called the honor roll, the list includes the names of all students with a quarterly grade-point average of B+ or higher.

About 13 per cent of the total student population is on the Deans' List. About 4 per cent (359) of the total, or approximately a third of those on the list, received straight A's (grade-point average of 4.0).

To be eligible for the Deans' List, students must have earned a quarterly grade-point average of at least 3.50 (B+) and have taken 80 per cent or more of their courses on the normal grading system (A, B, C, D, or F). Both full-time and part-time students are eligible.
